THE MODEL BUFF COMMUNITY

Our model Buff community will develop residents’ commitment to learning and personal responsibility to be globally conscious members of their CU community. Students who live in the residence halls have an opportunity to interact and build relationships that will foster learning when they engage in dialogue and reflect on their experiences with others.

Residence Life is committed to providing student spaces as avenues for growth and development. As a result, students will explore themselves, gain new perspectives, recognize their impact on others, on CU and on the world around them.

There are four foundational aspects of our Residential Experience:

**PERSONAL RESPONSIBILITY**
Students will engage in self-discovery and evaluate the personal impact of their choices.

**ACADEMIC RESPONSIBILITY**
Students will build a strong commitment to learning by applying their out-of-classroom experience to their academic pursuits.

**COMMUNITY RESPONSIBILITY**
Students will foster responsibility within their community and gain awareness of how their actions impact others.

**GLOBAL RESPONSIBILITY**
Students will explore how their values and actions as globally conscious citizens influence society.
